

## PLANE TANKS

Our company produces PLANE TANKS with capacity 1 000 and 2 000 liters. This type of tanks go through a standard doorway. They take up a little space in a room and they are easy to transport. The hole in the middle allows to conveniently attach tank, and stand also as a rib of strength.

**Plane Tank B 1 000**

Type	Volume, l	Dimensions l x w x h (mm)	Neck diameter, mm	Thread, inch	Wall, mm	Weight, kg
B 1 000	1 000	1 530/670/1 400	350	1	5	34
B 2 000	2 000	2 350/780/1 520	350	1	5,5	72

**Plane Tank B 2 000**

### Main Advantages of The Plane Tanks:

- Go through a standard doorway
- Take up little space in the room
- Easy to transport
- The hole in the middle allows to conveniently attach tank, and stands also as a stiffening rib
