

## SHOWER TANKS

We produce the Shower Tanks with capacity 100, 140, 160 and 200 Liters. This type of Tanks is used for the organization of summer showers. Black colors provides water heating in the sun. The tapered bottom ensures 100% water drainage.

### SCOPE OF APPLICATION:

- on the backyards of country houses
- on the summer camps for children
- on the city beaches
- on the building sites
- on the campsites and tourist parking
- on the warehouses

### MAIN ANVANTAGES:

- design in black color, which ensures water heating in the sun
- cone-shaped bottom provides 100% water drain

*Together with our tanks, summer Shower Tanks can be easily constructed from any available material.*

Type	Volume, l	Dimensions, l x w x h (mm)	Neck diameter, mm	Thread, inch	Wall, mm	Weight, kg
100	100	800/800/188	220	1/2	3,5	5
140	140	900/900/300	220	1/2	4	7
160	160	900/900/296	220	1/2	4	7,5
200	200	1 175/1 175/320	350	1/2	4,5	12
